

SAINT FRANCIS HEALTH SYSTEM LABORATORY UPDATE

DATE: November 6, 2007

TO: Medical Staff

FROM: Laura VanNewkirk, MD
Jay Hupp, MT(ASCP)SC
Core Laboratory

SUBJECT: Low Bone Density Profile

The Laboratory at Saint Francis Hospital is pleased to announce the availability of the Low Bone Density Profile. This profile includes testing for 25, OH-Vitamin D, Intact Parathyroid Hormone, Calcium, and Phosphorus. This profile can be ordered in Ulticare under the Laboratory menu point by selecting "Profiles" and then "Low Bone Density Profile." Questions regarding this offering can be directed to Dr. Laura VanNewkirk or Jay Hupp at 494-1300.
